Comprised of Tier one A+ LFP Cell with over 6000 cycles and a service life of over 10 years. Optional PV charging module, of-grid switching module, inverter, STS and other accessories ...

As a professional manufacturer in China, produces both energy storage cabinets and battery cell in-house, ensuring full quality control across the entire production process.

The IEB350kWh standard battery energy storage system is purpose-built for commercial and industrial applications. With a fully liquid-cooled, all-in-one design, it features complete electrical isolation ...

The construction site backup energy storage solution employs liquid-cooled battery PACK + liquid-cooled PCS design, which has good heat dissipation effect. It supports long-term 1C rate ...

Constructed with long-lasting materials and sophisticated technologies inside, the storage cabinet reliably works even under extreme ...

The Cabinet offers flexible installation, built-in safety systems, intelligent control, and efficient operation. It features robust lithium iron phosphate (LiFePO<sub>4</sub>) batteries with scalable capacities, supporting on ...

Our in-house engineering and product development ensure that every solar PV system manufactured complies with international quality standards and is fully compatible for turnkey installations.

For IPPs and utilities, Qstor(TM) BESS is a powerful asset for enhancing grid services and unlocking new revenue streams. Our solution encompasses not just the core technology, but our proven expertise ...
