In this article, we'll break down what retail means, how retail differs from wholesale, the types of retail businesses, and how the system works from supply chain to store shelves.

Retail is the process of selling goods or services directly to consumers for personal use. This activity can occur in brick-and-mortar storefronts, online, or through other channels.

Retail businesses range from small local shops to global chains, and whether they operate in physical stores, online, or both, they all fall under the umbrella of retail. In this article, we'll ...

Retail is the sale of products to consumers in relatively small quantities. The consumers do not then sell on what they bought. In other words, the buyer does not resell. The buyer, in the ...
