What is IP55 40U galvanized steel outdoor Telecom cabinet?

An IP55 40U galvanized steel outdoor telecom cabinet is designed to house telecommunication equipment with 19" or 23" rack. It provides protection from vandalism, dust, rain, snow, and dripping water.

What does IP55 rating mean for an outdoor telecom cabinet?

The IP55 40U galvanized steel outdoor telecom cabinet provides protection from dust, rain, snow and dripping water. IP55 rating indicates the level of sealing effectiveness of electrical enclosures against intrusion from foreign bodies (like dust and water).

What is an outdoor integrated cabinet?

Outdoor integrated cabinet is well suited for power equipment, batteries, telecom gear, all integrated into a robust, economical package. The cabinet contains internal mounting rails, which allow installation of standard 19" equipment. Support custom-made.

What is an IP55 distribution board?

An IP55 distribution board, as produced by Blakley Electrics, is a type of distribution board that is type tested to IP55 and has incomers rated up to 250A. These boards meet the requirements of BS EN 61439-3 and are approved by London Underground (LUL) for installation on LUL premises, including defined Section 12 locations.
