How to choose a soundproof server cabinet?

Choose an acoustic soundproof server cabinet that can hold all leading servers, including blade servers. For maximum versatility, the M6 rails should be adjustable and the enclosure should have generous space for cable management.

What are soundproof cabinets?

All of our soundproof cabinets are purpose built enclosures aimed at 'non-IT' spaces such as offices & schools and because of their furniture like appearance they even look great at home too. Their strong design means some of our smaller models can double up as worktops, supporting printers and other peripherals.

Can a soundproof server cabinet reduce noise to whisper-level?

So, a soundproof cabinet with 31 dBA attenuation can reduce the noise to whisper-level. Black Box offers two lines of high-quality soundproof server cabinets, including the best sound attenuation available today. Browse our products to find the right solution for your office, school, medical practice or retail location.
