What is an outdoor telecom enclosure?

Our outdoor telecom enclosures support a wide range of telecommunications and infrastructure needs: Fiber Optic Networks: From compact fiber distribution units to high-capacity data center enclosures like the AP-Data with six slack frames, our cabinets manage dark-fiber volumes with organized cable management and secure slack storage.

Where are outdoor Telecom enclosures made?

Every outdoor telecom enclosure we manufacture is designed, fabricated, and assembled entirely in the USA. Our commitment to American manufacturing means you receive consistent quality, faster lead times, and complete Build America, Buy America (BABA) self-certification documentation with every order.

What is a telecom enclosure?

Telecom enclosures need thermal cooling as well as dust protection from all the elements. Enclosures designed with the Telecommunication industry in mind. DDB offers a comprehensive line of NEMA enclosures configured for the most dynamic of situations. DDB Enclosures designed, engineered and manufactured for solar applications.

What sizes are available for a telecommunication enclosure?

We provide a large variety of standard sizes from 16" to 90" high and from 25" to 42" deep with adjustable and reversible EIA 19"/23" racking rails, front and rear doors and 3 point, pad locking handles. Designed for the telecommunication industry, our enclosures can be deployed in harsh outdoor environments both rural or residential.

Outdoor telecom cabinets are essential components in modern telecommunications infrastructure, providing secure, weather-resistant enclosures for critical networking equipment.

Bison manufactures telecom enclosures at a competitive unit cost & rapid turnaround that are used in protecting electrical equipment. Request a quote today!
