With the launch of Walo Storage, Senegal's energy sector enters a new era of sustainable solar power and reliability.

Senegal has begun commercial operations at a new solar energy facility that combines photovoltaic power with lithium-ion battery storage, the first of its kind in West Africa, as the country ...

Independent power producer Africa REN has commissioned a solar-plus-storage project in Senegal. The Walo Storage project is the first solar installation in West Africa to include energy ...

our energy delivery, Walo Storage marks a major technological breakthrough for the country. The installation facilitates the increasing integration of solar energy while avoiding the emission

Described as a first for West Africa, a solar PV installation with battery storage project dedicated to frequency regulation has been commissioned in Senegal.

Walo Storage positions Senegal at the forefront of integrating variable renewable energy while enhancing grid resilience. Its operational model offers a replicable blueprint for neighboring ...

Senegal and sustainable infrastructure developer Africa REN have commissioned the Walo Storage facility in Bokhol, marking the first grid ...

Combining photovoltaic solar with a storage system is a unique solution to meet the current and future needs of the grid. In order to complement and intensify our local impact, Walo Storage is committed ...
