Hager: In 2025, the fourth block of the Mochovce nuclear power plant should be put into regular operation. Then, Slovakia will have 70% of its electricity from nuclear sources. There were also ...

Slovensk&#233; elektr&#225;rne, the largest electricity producer in Slovakia, plans to connect the country's largest pumped storage power plant, Cierny V&#225;h, with a modern battery storage system.

The Slovakian project will be the first of its kind in Europe, delivering gigawatt-hour-scale energy storage capacity to capture surplus electricity from VVB's hydropower stations and...

But hold onto your solar panels: this Central European nation is rolling out one of the most ambitious energy storage project portfolios for 2025, aiming to become a regional hub for renewable integration.

With a grant of more than EUR2.1 million, the project is carrying out studies to prepare the way for the modernisation and hybridisation of the Cierny V&#225;h pumped hydro energy storage plant in ...

European Commission funding is supporting a project to integrate battery storage at a pumped hydro energy storage (PHES) plant in Slovakia.

The European Commission has earmarked EUR2.1 million under the Connecting Europe Facility (CEF) for Energy to assess adding a battery energy storage system (up to 80 MW/160 MWh) ...

Slovensk&#233; elektr&#225;rne, the largest electricity producer in Slovakia, plans to connect the country's largest pumped storage power plant, Cierny V&#225;h, ...
