Do you finance solar & storage projects?

We finance both solar plus storage projects as well as standalone storage projects. We know the asset class and can provide value with long-term, project-level debt. Our solar lending team members are experts in utility-scale and C&I solar, community solar and energy storage project financing nationwide.

Who participates in the financing of solar projects?

Developers, independent power producers, solar panel manufacturers, engineering, procurement, and construction ("EPC") contractors, utility companies, financial investors and, more recently, commercial and industrial end-users all participate in the financing of solar projects in different manners and at different times.

Who is Live Oak Solar Lending?

Our solar lending team members are experts in utility-scale and C&I solar, community solar and energy storage project financing nationwide. Live Oak works with developers and their tax equity partners for both construction and permanent financing for standalone battery storage systems across the country.

Does OECS need financing to invest in distributed solar PV?

The need for adequate financing products to enable investment into distributed solar PV has been clearly recognized and accepted across the OECS region. Reducing solar PV prices have contributed to greater uptake but this uptake is still relatively slow when compared to other regions and other Caribbean islands.

While some large solar and wind power developers have begun to emerge in recent years, none have financing capacity at the scale of the major oil and gas companies.
