Civil works have officially begun for the 150-megawatt solar power plant in Daanbantayan, northern Cebu, on March 16, 2025.

Equipped with a battery storage system, the facility is scheduled to begin operations next year. The 176 MWp plant is expected to generate 280 gigawatt-hours of clean energy annually.

THE Board of Investments (BoI) said the green lane-certified P7.5-billion Daanbantayan Solar Power Plant in northern Cebu has commenced with construction.

Spanish renewable energy firm ACCIONA Energ&#237;a signed engineering procurement and construction contracts with Power Construction Corporation of China for a P7-billion solar project in ...

Spanish energy firm Acciona Energia is set to complete the construction of its 180-megawatt peak (MWp) solar power project in Cebu a year from now.

Spanish renewable energy company Acciona Energia has signed an engineering, procurement and construction contract with Power Construction Corp. of China for its 180-megawatt ...

Spanning 187 hectares, the solar farm will operate under a 25-year build-transfer-operate scheme, with Power China as the contractor. The project, scheduled for completion by December ...
