What is the largest energy storage project in Southeast Asia?

Leading the way for the region, Singapore launched the largest energy storage project in Southeast Asia in 2024. Coordinated by the Singapore Energy Board and invested and constructed by Singapore Sembcorp Group, the project is located on Jurong Island, Singapore's energy and chemical center.

Does Singapore have a battery energy storage system?

Of the 11 ASEAN members, Singapore is taking the lead in the battery energy storage systems (BESS) space. Earlier this year, the city-state launched the region's largest battery energy storage system (BESS).

Is Southeast Asia a good place to invest in energy storage?

Image: ACEN. There has been an uptick in energy storage investment in Southeast Asia, a region still largely powered by coal and experiencing high growth in population and energy demand. Andy Colthorpe speaks with companies working to establish a framework of opportunities in the region.

In December last year, Sembcorp Energy Storage System, Southeast Asia's largest storage project, which has a capacity of 285MWh and spans two hectares of land in ...

BESS is able to complement renewable energy sources such as solar power, ensuring a reliable and flexible power supply. During the day, when solar energy production is at its peak, ...
