What are outdoor telecom enclosures?

Outdoor telecom enclosures are structures designed to protect and house telecommunications equipment outside. They come with a range of options including cable management, thermal management, environmental protection, and integration. All these solutions and enclosure products can be custom-made. KDM relies on custom and standard NEMA standard telecom cabinets to protect their internal equipment.

What accessories are included in an outdoor Telecom cabinet?

An outdoor telecom cabinet from KDM includes enclosure fans and power options. Depending upon the installation location, KDM also offers an optional built-in air conditioner or heat exchanger.

What is an outdoor Telecom cabinet?

An outdoor telecom cabinet protects the cables and equipment that process and reroute information for our communication needs via the internet, television, and other applications. These enclosures include organizing racks and thermal management systems, among other features. What is a fiber cabinet?

What is KDM outdoor telecom enclosure made of?

KDM outdoor telecom enclosures are made of stainless steel (including 304 stainless steel and 316 stainless steel), galvanized steel, and carbon steel. This makes them sturdy and reliable. At KDM, we provide a large selection of outdoor telecom enclosure sizes, types, and shapes. We can help size the right enclosure for your site.
