The CyberPower BCT3L9N125 3-Phase Modular UPS Battery Cabinet can hold up to 6 battery modules (BM120V30ATY). These 3-layer units can be configured as stand-alone cabinets, ...

Highly efficient, scalable 200 to 500 kVA/kW 3-phase UPS featuring modular, redundant design and low TCO for medium and large data centers and mission ...

Legrand offers universal battery cabinets for all three-phase Legrand Uninterruptible Power Supply (UPS) models ranging from 10kVA to 800kVA power output. They are designed to accommodate ...

The Vertiv(TM) PowerUPS 9000 is a high-power density, energy-efficient, and compact uninterruptible power supply (UPS) system. It is designed to support IT applications from traditional computing to ...

Legrand offers universal battery cabinets for all three-phase Legrand Uninterruptible Power Supply (UPS) models ranging from 10kVA to 800kVA power output. They are designed to ...

High performance 3-Phase power protection for any size data center and other critical applications.

High density computing with increased server implementation, greater equipment densities, increased power demands, cost reduction initiatives, green directives and redundancy are driving the demand ...

CyberPower 3-Phase Modular UPS Battery Cabinets are designed to accommodate several battery modules and can be configured into tower, side-by-side formations, or easily mounted ...
