Off-grid energy storage cabinet for solar power generation -- PWM inverter technology, quasi-sine wave output, stable power supply.

o Support peak shaving, off-grid, Solar-Storage-Diesel mode; o Wide voltage range: 150V~750V, capacity configurable; o STS can be added to achieve seamless ...

With the patented technology of virtual synchronous machine features, it can realize the function of multiple remote free parallels without communication lines and off-grid switching;

Integrated PV Energy Storage Cabinet solutions--modular, easy to deploy, certified to international standards, supporting on/off-grid and peak-shaving applications with global delivery and support.

It is suitable for microgrid scenarios such as small-scale commercial and industrial energy storage, photovoltaic diesel storage, and photovoltaic storage and charging.

o Support peak shaving, off-grid, Solar-Storage-Diesel mode; o Wide voltage range: 150V~750V, capacity configurable; o STS can be added to achieve seamless switching; Parameters: Max. ...

We have extensive manufacturing experience covering services such as battery enclosures, grid energy storage systems, server cabinets and other sheet metal enclosure OEM services..

String PCS is adopted to improve the battery life cycle and support off-grid/qrtd-connected/off-grid hybrid modes, etc. Instant switching and black starting. Customization possibility. Read more ...
