Does Pacifico energy have a battery storage facility in Tokyo?

Tokyo, December 9, 2025 -- Pacifico Energy K.K. (Head Office: Minato-ku, Tokyo; President & CEO: Hiroki Matsuo; hereinafter "Pacifico Energy") today announced that it has commenced commercial operation of a grid-scale battery storage facility developed by the company in Tokyo Area.

What are the requirements for a battery project in Tokyo?

These are the Ministry of Economy, Trade, and Industry (METI) and the Tokyo prefectural subsidies. There are a series of requirements to be eligible: projects must have a minimum capacity of 1 MW, the battery must be able to participate in various markets, and the battery must be directly connected to the grid. The Market for Energy Storage

When will Itochu launch its first energy storage station?

Going forward, the plan is to launch the first energy storage station around fiscal 2025, and then proceed with the development and operation of energy storage stations one after another. ITOCHU has developed a product lineup that meets market needs, from home storage batteries to large-scale energy storage systems for industrial and grid use.

With this operation, Pacifico Energy has entered the Tokyo power market--its third regional market following Hokkaido and Kyushu. By operating ...

With limited space for solar farms and wind turbines, energy storage systems (ESS) have become the linchpin of Japan's clean energy transition. So what companies are actually making this happen in ...

It is Japan's first fund exclusively for energy storage that invests in, develop and operate new energy storage plants, including those equipped with ...
