What is Japan's first energy storage project?

In 2015, we started Japan's first demonstration project covering energy storage connected to the power grid in the Koshikishima, Satsumasendai City, Kagoshima. This project is still operating in a stable manner today. One feature of our grid energy storage system is that it utilizes reused batteries from EVs.

Does Pacifico Energy have a battery storage facility in Tokyo?

Tokyo, December 9, 2025 -- Pacifico Energy K.K. (Head Office: Minato-ku, Tokyo; President & CEO: Hiroki Matsuo; hereinafter "Pacifico Energy") today announced that it has commenced commercial operation of a grid-scale battery storage facility developed by the company in Tokyo Area.

When will Itochu launch its first energy storage station?

Going forward, the plan is to launch the first energy storage station around fiscal 2025, and then proceed with the development and operation of energy storage stations one after another. ITOCHU has developed a product lineup that meets market needs, from home storage batteries to large-scale energy storage systems for industrial and grid use.
