How TEC is powering Tuvalu with renewable resources?

TEC has set a vision of "Powering Tuvalu with Renewable Resources" and this align well with the Tuvalu Government set target of 100% renewable energy by 2025. All the islands of Tuvalu are on 24/7 power supply and the access rate is 100%. The outer islands are powered by hybrid solar PV system with diesel generator on standby.

Does Tuvalu have solar power?

All the islands of Tuvalu are on 24/7 power supply and the access rate is 100%. The outer islands are powered by hybrid solar PV system with diesel generator on standby. For the main island of Funafuti there are some solar PV systems tied to the grid with diesel base load generators.

Why is there a temporary power shedding in Tuvalu?

The Tuvalu Electricity Corporation (TEC) wishes to inform all residents that temporary power shedding will be implemented across affected areas due to a shortfall in available generation capacity. Recent technical challenges and scheduled maintenance have reduced the output of our power generation capacity.

Discover why mobile generator containers are essential for disaster relief operations, providing reliable emergency power solutions and portable energy for humanitarian aid efforts.
