What is a Giganet 42U network cabinet?

The Giganet 42U Network Cabinet is packed with features designed to simplify rack equipment installations and rack equipment maintenance: top and bottom cable routing ports, perforated door and side panels to promote efficient airflow, adjustable vertical mounting rails and more.

How long does it take to get a 42U server cabinet?

An enclosed cabinet with a front and rear door and side panels is more secure and will provide with more efficient airflow management. We supply a wide range of 42U server cabinets made to order and stocked in the UK. The typical lead time is 5-7 days unless the cabinet is ex stock at time of order.

How do I choose a 42U rack or cabinet?

When selecting a rack or cabinet there are several factors to consider. A 42U rack or cabinet can house equipment whose total height when placed into the rack is no more than 1.87m. Care therefore has to be taken when selecting a rack to make sure that there cabinet height is sufficient to house the IT server, networking peripheral or IoT device.
