How much weight can a DeLong 80kWh battery support?

It can easily support the weight of the large-capacity battery, which is 672 kg. The DeLong 80kWh lithium battery has a high usable capacity and can undergo up to 6,500 cycles. At the same time, it has a very low self-discharge rate, giving it a lifespan that is 3 to 5 times longer than that of lead-acid batteries.

Can a DeLong 80kWh battery be used as a solar energy system?

DeLong's 80kWh battery pack can be connected to an inverter or PCS to form a solar energy system. This system can output a voltage of 512V. You can use it in grid-tied, off-grid, or hybrid modes. The 80kWh battery meets energy needs for residential, commercial, emergency, and industrial applications.

How many volts can a 80 kWh battery output?

This system can output a voltage of 512V. You can use it in grid-tied, off-grid, or hybrid modes. The 80kWh battery meets energy needs for residential, commercial, emergency, and industrial applications. Price: Click The Button Below To Get A Discount Price.

Does the 80kWh battery bank work with a hybrid inverter?

The 80kWh battery bank is equipped with RS485 and CAN communication ports. It has great compatibility with various brands of hybrid and off-grid inverters. Additionally, DeLong can adjust the system according to your inverter's communication protocol. You don't need to worry about compatibility.

The construction characteristics of the recombination type lead-acid electric accumulators (valve-regulated hermetic accumulators); the absence of acid fumes and the virtual absence of gaseous ...
