Are battery storage cabinets safe?

Without the right separation, climate, and safety measures in place, storing batteries on-site poses a dormant but potentially expensive and devastating threat to your work environment. CellBlock Battery Storage Cabinets are a superior solution for the safe storage of lithium-ion batteries and devices containing them.

What are cellblock battery storage cabinets?

CellBlock Battery Storage Cabinets are a superior solution for the safe storage of lithium-ion batteries and devices containing them. Our practical, durable cabinets are manufactured from aluminum, and lined with CellBlock's Fire Containment Panels.

Are lithium ion battery storage cabinets safe?

By containing potential fires, lithium ion battery storage cabinets prevent workplace accidents, protecting employees and valuable equipment. Organizations handling lithium-ion batteries must adhere to strict safety standards. Using lithium battery storage cabinets ensures compliance with fire safety and hazardous material regulations.

How to choose a lithium ion battery storage cabinet?

Here are the key elements to look for: A lithium ion battery storage cabinet should be made from double-wall powder-coated steel with a thermal air barrier to contain potential fires and prevent external heat from affecting stored batteries.
