What are explosion-proof cabinets?

Explosion-proof cabinets are specialized storage units engineered to safely contain flammable or reactive materials that could ignite under certain conditions.

Do explosion-proof cabinets require outdoor storage?

While most explosion-proof cabinets are installed indoors, some operations require outdoor storage, especially when dealing with larger volumes or limited interior space. In these cases, weather resistance, additional sealing, and elevated platforms may be necessary to prevent corrosion and environmental damage.

Are Genie cabinets explosion-proof?

For teams seeking tailored solutions, Genie Scientific offers explosion-proof cabinets designed with real-world conditions in mind--combining compliance, durability, and peace of mind in one smart package. Additional

Why do you need a flammable liquid storage cabinet?

Flammable liquids, corrosive chemicals, and reactive substances each have unique storage requirements, and pairing the wrong cabinet with the wrong material can compromise both safety and compliance. For instance: Flammable liquids such as acetone or ethanol require cabinets built to prevent ignition from external sources and to contain vapors.
