Hiltra supplies a complete range of fireproof battery cabinets, battery containers and battery boxes for the safe storage and controlled charging of lithium-ion batteries.

Explore our range of lithium-ion cabinets, meticulously engineered with cutting-edge fireproof battery storage technology, ensuring a secure and reliable solution for energy storage.

To address these concerns, the battery cabinet has become a critical safety solution. A lithium-ion battery charging cabinet provides both fire-resistant storage and controlled charging ...

CellBlock Battery Storage Cabinets are a superior solution for the safe storage of lithium-ion batteries and devices containing them. Our practical, durable cabinets are manufactured from aluminum, and ...

Battery cabinets provide fire-resistant containment, reducing the risk of fire spread from thermal runaway. Proper storage minimizes hazards from ...

This webpage includes information from first responder and industry guidance as well as background information on battery energy storage systems (challenges & fires), BESS installation ...

CellBlock Battery Storage Cabinets are a superior solution for the safe storage of lithium-ion batteries and devices containing them. Our practical, durable cabinets are manufactured from aluminum, and ...

Today, lithium-ion battery energy storage systems (BESS) have proven to be the most effective type and, as a result, installations are growing fast. Stationary lithium-ion battery energy storage "thermal ...
